| Pupils in Early Years make accelerated progress, particularly within communication and interaction. | This year, 28% behind on communication milestones. Personalised interventions to support communication and interaction. Mrs Williams is attending training with the Little Sutton Trust. CPD opportunities for Early Years staff – Effective communication through play. 1 hour intervention per week £2,000. | The EEF recognise the importance of approaches that support both cognitive and linguistic aspects of communication, such as interactive reading or collaborative talk. Developing communication and language approaches typically have a very high impact and can increase young children's learning by seven months. |
| To enhance the experiences and opportunities available to children. To provide regular opportunities for sustained periods of play in the outdoor environment to enhance concentration. | x1 weekly forest school session with class teacher and resources to support - stocks of wood, outdoor resources and equipment and self-storage sheds £8,000. | The EEF report that children who are experiencing disadvantage are on average, 4.6 months behind other children in their learning. According to the EEF outdoor adventure learning might provide opportunities for disadvantaged pupils to participate in activities that they otherwise might not be able to access. Through participation in these challenging physical and emotional activities, outdoor adventure learning interventions can support pupils to develop non-cognitive skills such as resilience, self-confidence and motivation. |
